

# Malta Teaching Through Coding & Robotics

- On Sunday we had an introductory session of our course „Teaching Through Coding& Robotics on Malta organising by the Smart Solution. We presented our group from municipality Lubicz and gave small souvenirs to other participants

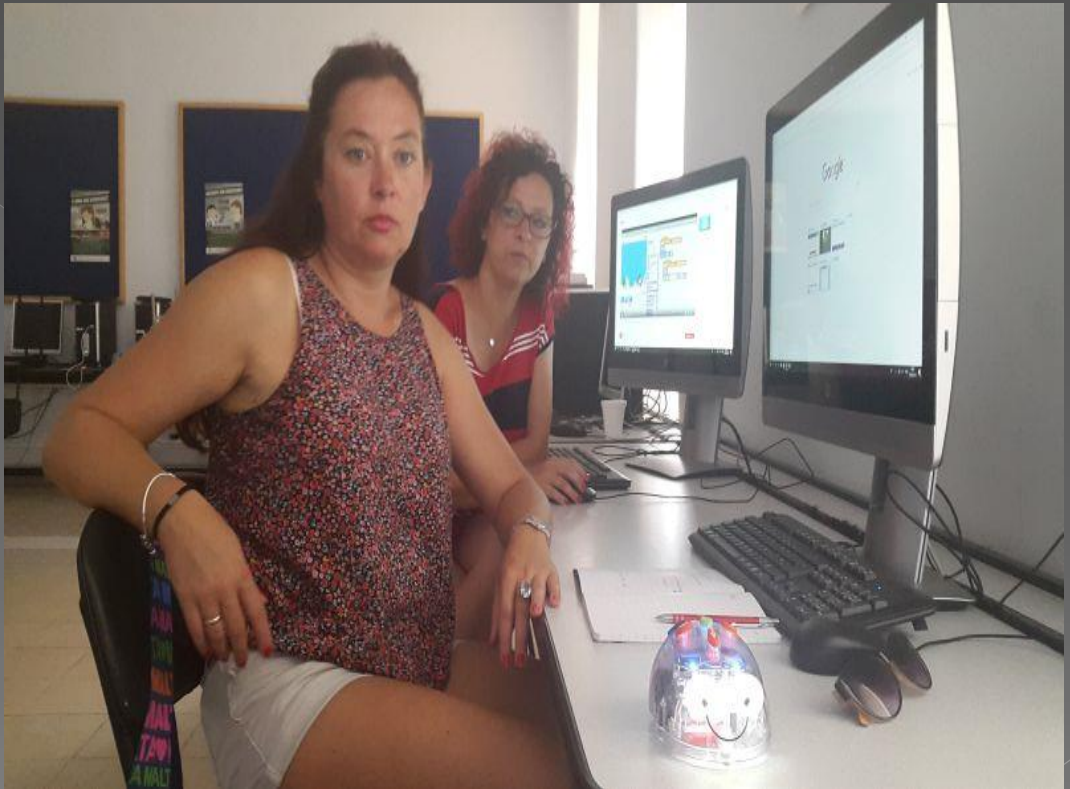

- ◉ We have worked with different apps and programmes (Hour of Code, Lightbot, Kodable, playcodemonkey that help children to develop their adventure with coding through playing games

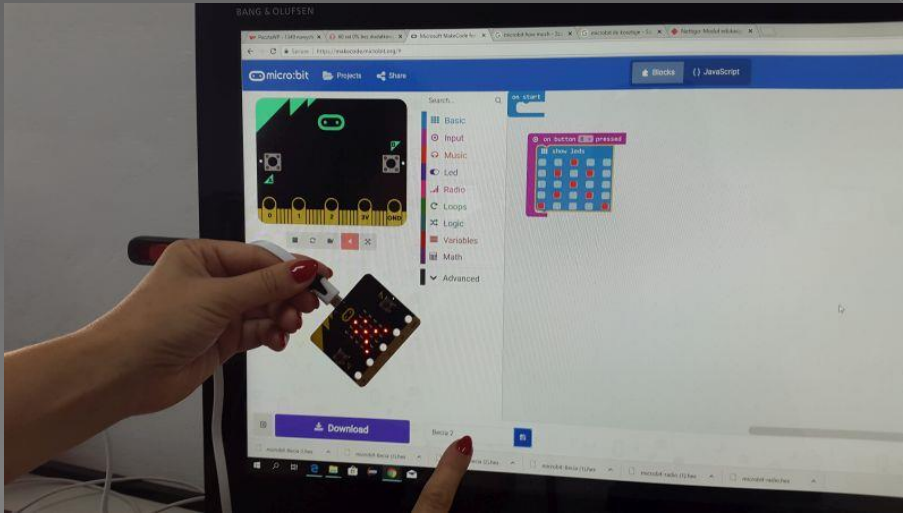

- ◉ We learnt coding through robots. There were BeeBot, ProBot, Ozobot, Lego WeDo, Sphero. We could see how they work and train how to use them.

- Next day, we worked in small groups preparing projects. We created samples of lessons using different tools of ICT learnt during the course.
